HUAIHAI AUTO PARTS

Brake Rotor & Drum Manufacturing Partner — Overseas Business Division

Huaihai is a large-scale Chinese manufacturer of brake rotors and drums, along with steering knuckles and wheel hub units. Casting, machining and coating are handled fully in-house, supported by our own testing laboratory, including materials analysis.

Product Range

- Brake rotors: plain, coated, and drilled/slotted programs
- Brake drums, including heavy-duty drums for commercial and semi-truck applications
- Steering knuckles and wheel hub units
- Neutral or private-label packaging

Quality & Support

- Full-process manufacturing under an IATF 16949 quality system
- PPAP Level 3 documentation support
- ACES/PIES data delivered with our programs, built around your reference list
- 24-month / 24,000-mile warranty on brake rotors and drums

Programs

- Trial orders from 100 pcs per reference (300 pcs for branded / private-label)
- Full-container shipment; annual programs by OE family with rolling forecasts and reserved capacity for established partners
- Send us the OE numbers you buy most — we price those references first
